The Selling Price per Square Foot is a great indicator for the direction of Property values. Since Median Sales Price and Average Sales price can be impacted by the 'mix' of high or low end Properties in the market, the selling price per square foot is a more normalized indicator on the direction of Property values. The March 2016 Selling Price per Square Foot of \$405 was down -6.0% from \$431 last month and down -2.4% from \$415 in March of last year.
